Submit your abstract and register now

We will have eleven plenary sessions for oral presentations and two poster sessions with link to the following topics:

- *Methodological Advances,*
- *Terrestrial & Aquatic Biogeochemistry,*
- *Plant Ecophysiology,*
- *Paleoclimatology & Archeology,*
- *Health & Medical Sciences,*
- *Food Authenticity,*
- *Nutrition & Forensic,*
- *Atmospheric Sciences,*
- *Soil Carbon & Nitrogen Cycling,*
- *Isoscape & Spatial Variability of Isotopes,*
- *Geochemistry & Hydrology and Molecular & Intramolecular Biology.*

Abstracts concentrating on research on applied stable isotopes as a research tool in these scientific disciplines are welcome to be submitted for presentation either as a talk or in one of the two poster sessions.

Cordial invitation

It is with great anticipation that we are planning a new the next Joint European Stable Isotope User Meeting – JESIUM 2022, hoping to finally welcome you all at the University of East Finland's campus in beautiful Kuopio (Finland) next autumn. We plan to host it as a hybrid event with an on-site conference and the possibility to join online through a professional conference platform.

See you in Kuopio in 2022!

On behalf of the organisation committee

*Christina Biasi, Marja Maljanen
& Jukka Pumpanen*
